

## Golden Opportunity- A Unique Consulting Firm

Golden Opportunity specializes in providing support to organizations to *get work done* and *make change happen and stay*

*in place.* Golden Opportunity can provide expertise in identifying opportunities or, help if there is no shortage of ideas, projects or work to be done, but you have a real shortage of time and “go to” people. Golden Opportunity can free up time and get work done by project implementation, change management, interim executive assignments, contract services and other action oriented consulting services and strategies.

Making Change Happen

Action Oriented Healthcare  
Consultants

Tired of all talk and no action? We ARE action. We help implement change, get work done and give you back some precious time that you need to lead a successful organization. We make things happen that other consultants just talk about. Contact us today so we can partner with you to execute your ideas and make things HAPPEN for you and your organization.

Don't miss out on your **Golden Opportunity** any longer.

### WHAT IS GOLDEN OPPORTUNITY?

Golden Opportunity, LLC, is a unique healthcare consulting company specializing in providing a range of services (from assessment and evaluation strategies to results oriented work plans through full implementation) that help executives and organizations achieve success. We help you identify golden opportunities for success and implement those already identified. The expertise of **Golden Opportunity, LLC**, is in getting work done and in taking an opportunity from a concept to a lasting reality.

### WHY GOLDEN OPPORTUNITY ?

Why? In a word, "ACTION". The focus of **Golden Opportunity, LLC**, is to get things done and make change happen. You receive individualized, customized, and personalized services from seasoned healthcare executives and directly benefit from the extensive intellectual capital of many years of experience and expertise.

Tired of all talk and no action? We are action. We help get things DONE that others just talk about. Contact us today so we can plan how to: get your work done to achieve results, make change happen successfully and keep those changes in place in your organization.

Don't miss out on your **Golden Opportunity** any longer.

### THE CHALLENGE

Many consulting firms identify problems and possible solutions. Implementing the changes necessary to solve the problems is another issue. Most executives and managers already have more work to be done than they can handle. **Golden Opportunity** executives have the objectivity and credibility required to get the job done. We can surface the areas of concern that need attention and provide the "go to" people to do the work, make changes happen and have them last.

In addition to the "usual" consulting services, **Golden Opportunity, LLC**, can provide an executive "clone", another pair of experienced, seasoned hands to turn to for help *periodically* to get things done without adding a position. If you answer "yes" to any of the following, let us help you: Is some work just not getting done? Do you have reports and recommendations collecting dust waiting for action? Is the expense for these reports and other consultants greater than the actual ROI to date? Do you have great ideas and golden opportunities that have yet to be implemented? Do you ask project teams for progress reports or updates and receive explanations for delays? Have you noticed slippage back to the "old ways", missed opportunities and cost creep after you thought change had been successfully implemented?

With **Golden Opportunity, LLC** you can focus exclusively on specific, critical priorities while working within your budget constraints and without adding permanent overhead to achieve results.

**THE SOLUTION-GOLDEN OPPORTUNITY, LLC.** Golden Opportunity will be your partner to get work done and to make change happen and last in your organization.

Services include:

- **Healthcare consulting-management, operations and finance**
- **Operational review and reorganization**
- **Business, operations, quality and process improvement or redesign**
- **Management and organizational structure review**
- **Project and task management (planning, coordination, support and implementation)**
- **Strategic and business planning and implementation**
- **Change management (analysis of resources required, assessment of change readiness and change implementation )**
- **Program, product and business development**
- **Contracting and negotiating assistance**
- **Executive and managerial workload relief**
- **Idea management (assessment, planning, implementation)**
- **Customer service and relations management**
- **Individual assessment and coaching (leadership, change, executive and management skills)**
- **Interim executive assignments**
